GREAT indicators and the 3Zero programming strategy

The GREAT indicators are part of ACTED’s programming strategy 2020-2025: The 3 Zeros. The strategy is a vision based on three pillars and nine thematic areas, aligned as much as possible with the Sustainable Development Goals (SDGs). The pillars are Zero Poverty, Zero Carbon and Zero Exclusion, and the thematic areas fall under, or between, the pillars.

GREAT is an acronym for the Global Review of Effectiveness for Aggregation and Tracking. The indicators intend to bring all ACTED country programs together in a single and coherent strategy to assess impact. The effort also seeks to strengthen effectiveness and relevance of ACTED as a global civil society organization. GREAT indicators are integrated, based on relevance, in all projects, to gather information on cumulative progress.
