About Acted

For the past 30 years, international NGO Acted has been going the last mile to save lives. Currently, Acted supports 20 million people across 43 countries to meet their needs in hard-to-reach areas - and pursues a triple mandate as a humanitarian, environmental and development aid actor. Acted relies on an in-depth knowledge of local territories and contexts to develop and implement relevant long-term actions, with a wide range of local and international partners, building together a "3ZERO" world: Zero Exclusion, Zero Carbon, Zero Poverty.

Position's context and key challenges

By mid-2019, a severe escalation of the violence between the non-state armed groups and the military resulted in mass displacements, with more than 750,000 IDPs across the northern Cabo Delgado Province in early 2022. In parallel, the government's Reconstruction Plan for the province, targeting areas cleared by security forces and in need of infrastructure investments, has been incentivising the gradual return of thousands.

While the scale of the humanitarian response to conflict and displacement in Cabo Delgado has been on the increase since mid-2020, it remains insufficient to address affected populations' needs – both displaced and returnees. The conflict has destroyed livelihoods, disrupted markets, and essential services across the hardest-hit districts, and access to most districts classified as in need of WASH humanitarian assistance.

Acted was officially registered in Mozambique in 2022, contributing to the humanitarian capacity in country with its expertise in CCCM and WASH in particular. In addition to the provision of coordination capacity for the CCCM cluster in Pemba (now concluded), the organisation is initiating in Sept. the implementation of a project aiming to assist returnees in the province of Cabo Delgado with better access to essential WASH services. Our objective is to contribute to stabilization efforts by targeting areas within Cabo Delgado province where return rates are high so as to provide returnees, host communities and possible IDPs with sustained and durable WASH assistance. In parallel to rolling out its humanitarian operations, Acted will be setting up its organisational capacity in Mozambique to enable the development of its team and response.
